**Modul72** is based on decorative wall elements used in the former GDR. Simple elements, called 'Formsteine', were assembled to form the patterns on walls, fences or buildings. These decorative walls can be found in all of eastern Europe. I found some of these amazing patterns in the Leipziger Strasse that were built around the ground floor of big Plattenbauten (prefabricated slab-construction building).

**Modul72** is a free-to-use pattern font. ©2004/2010 by Viktor Nübel
